INTRO: I Switched My Robot Off

I switched my robot off

And I know more but retain less

(two one, press ignition and lift off)

ASCENSION

You are now tuned into the tomb of Johavova

Play my tunes loud enough to shake the room what's the hold up

Heard the world is ending soon I assumed that they told ya

They tryna dinosaur us

So now it's time to go up

The sky is falling baby drop that ass for it crash

The sky is falling baby drop that ass for it crash

The sky is falling baby drop that ass for it crash

The sky is falling baby drop that ass for it crash

The roof is on fire, she wet like barbra steisand

Police everywhere its like a nigga killed a white man

I just wanna find a baby mama for the night end

So don't be coming round here on that batter right shit

On that 911 shit

Need a misses brown as missy I can have some fun with

Them slaves bones make Grace Jones'

Don't stop bitch stay focused they hated on us since days of Moses
Let my people go crazy them stars falling, don't chase em

The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash

Attack on Iraq
It's on a line
Typing it fast
Then it's slipping my mind
Oh when I'm drunk
I'm spirited back
I fall in a fire then I save myself
Then I get advantage
Cos the feelings so raw
In these times of sedition
Nothing is dull
And I'm moving into stillness
I'm recalling it all
And I'm a lover just a lover just a lover just a lover

The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash

All these Liberated women sitting in my lap
I'm finna catch a body like I got a gun and badge
I'm finna turn Obama to my Patna for he dash
Pull up to his pad wipe my ass with the flag
I'm just playing baby it's the land of free
Where you can get a glock and a gram for the cheap
Where you can live your dreams long as you don't look like me
Be a puppet on a string hanging from a fucking tree

The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash
The sky is falling baby drop that ass for it crash

STROBELITE

Momentary pain
Can be pleasure lane
Millisecond change
Magic lantern strains

Are we just too far to be as one again?
Are we obsidian?
Is this how it ends?

Well your life will turn

& just like a strobe
Cause your daddy's vain
And your mother won't

And your heart engages into heartless roads
Are we obsidian?
Is this how it goes?

And when your private life is dreaming
You're living the strobe-lite
And you will find the life you're needing
You're living the strobe-lite

Slide the light off you
You may find some peace
All will come to view
If you come with me

Are we just too far to be as one again?
Are we obsidian?
Is this how it ends?

And when your private life is dreaming
You're living the strobe-lite
Then you will find the life you're needing
You're living the strobe-lite

(Don't you see it live the strobe-lite)

INTERLUDE: THE NON-CONFIRMIST OATH

And now let's repeat the non-conformist oath
I promise to be different
I promise to be unique
I promise not to repeat things other people say

SUBMISSION

Don't try to hide away
You know you been long
Though I'm keepin calm
I'm not on
Go away my love
Thought I could change our fate
Tried again, but this delay
Is more than I can take

And it got to me
When you state your love
And you walk away
What could you be on?
Now you're not around
But I hope you see
I will be full on
If it's up to me
That's all I got

Feels so good doing me

If you take a look
At the time you took
And move on
But don't go too far my love
We could try harder baby
There's gotta be a better way
So much that we could make

And you got to me
When you state your love
But you run away
What could you be on?
Now you're not around
But I hope you see
Got to be full on
If it's up to me
That's all I got
All I got

Wish I could think of better ways
I done lost my patience yesterday
If u could see inside of me
A be no heart on my x-ray
A pawn that's tryna checkmate
But I don't see no escape
Just tryna keep my head straight
On thin ice with dull ice skates

At times I feel like giving up
Cause it seems like I had enough
Feels like my soul in handcuffs
Got questions but no answers
Can you help me out I need a friend
I'm losing faith in this world of sin
Tryna make ends meet
Where the weak don't sleep
It's like cycle that never ends
I can't pretend with no hand to lend
Can't take care of no grown men
All by ourself crying for help
But won't get saved by superman
All comes down to the mighty dollar
Greed and lust abusing power
Clock is ticking hour after hour
Make me wanna throw my hands and holla

And you're tired and sodden
Take it in your heart

Back to when it was cool
Cos there's no substitute
Who even knows the truth
The truth, the truth

Take it in your heart now love her
Where it all goes down

Outside cold, it ghost in now, it jet lag
I took it to the right man
Took it all back
When the courts were closing
It was bobby gracing
I know that
I put it to the right man
He put it back

Caught in your eyes

Stacks of light
Come streaming back
Make it for the best times
Growing pains
Good times

Take it in your heart now lover
Where it all goes down

BUSTED AND BLUE

Where does it come from
When everything waltzed outside
Busted and blue

Out in the universe
Through the lithium
Busted and blue

I was danced by a computer
A shadow on the wall
An image made by virgil
To rule over us all
So amplify the sirens
Into the fiery laments
Through the echo chambers

To other worlds I went

All my life

All my life

Beam my life on me

I am a satellite

And I can't get back without you

Be my life, Be my life

Be my life, Be my life

Where do they come from

The wires that connect to us

Weightless I fall on your body

Till we are invincible

I'm with you through altitudes

Busted and blue

All my life

All my life

Beam my life on me

I am a satellite

And I can't get back without you

Be my life, Be my life

Be my life, Be my life

Busted and blue

INTERLUDE: TALK RADIO

CARNIVAL

We play to win just to find the doll

Go home again and we both fall out

I wanna spend this time

Doing nothing

Keep you satisfied while they rob us blind

I hear the music in the background singing singing

Oh our eyes have seen the glory coming coming coming

And we play we play we play and complain

Just like a carnival

Game, Just like a carnival

Laugh, Just like a carnival

And Joke, Just like a carnival

Spinning me round and round and round (hey)

Just like a carnival

We play to win just to find the doll
Go home again and we both fall out
I wanna spend this time
Doing nothing

Just like a carnival
We Laugh, Just like a carnival
Sleep with the dead, Just like a carnival
Play with your mind, Just like a carnival
Spinning me round and round and round
Just like a carnival

LET ME OUT

Momma Mavis,
Oh momma they tried my patience
(Bleep) is gone
who is left to save us?
(Bleep) we mourn
I'm praying for my neighbours
They say the devil's at work
And (bleep) is callin favors
You say I'm dangerous
I speak for the nameless
I fly with the vultures
I be with them bangers
If change don't come
Then the change won't come
If the bands make em dance
Then the rain gon' come

Am I passing into the light
(am I looking) look into your eyes
all the world is in your head
when you send in another dial

You've got to die a little
If you want to live (come out)
Change comes to past
You've best be ready for it

Something out there can't you feel it
It's about to change it's form
Yeah yeah yeah it's the shifting times
But I won't get tired at all

Let me out

Look into my eyes
Momma tell me what you see
Tell me there's a chance for me
To make it out the streets
Tell me that I won't die
At the hands of the police
Promise me I won't, I'll live
My nephew and my niece
Promise me my pastor
Isn't lying as he preach
Tell me that they'll listen

If it's lessons that I teach
Tell me there's a heaven in the sky
Where there is peace
But until then I keep my piece in arms reach

SHE'S MY COLLAR

If I could take the crown and run

Then I'd call her

Cos she's standing drama

She know I'd call her

She kidding on a son then she order

Imagine me, imagine me now

She's my collar

I don't take her number

Just I think I'd call her

Take her down to somewhere dread and naughty

Clear my system I don't need another

This is my persona, secret lover

She's my collar

Nothing to be justified

Just one thing you should feel nada

I know she lies alone

She's my collar

I sense her in my mind

She's my collar

She the serpentine

She my collar

Send a message never call her

And now I want to taste another

In this segment of the summer

She's my collar

Nothing to be justified here

She the first I'm running with

She the one that get my collar

She's the one I'm running with

She's my collar

She's the one I'm running with

She's the one I'm running with

She's the one I'm running with

She's my collar

I'm yellow he was blue

It's nothing that he could hide

We made a green meadow

Whenever we would collide

I died a thousand times

I did what I had to do

Hey that's just how it goes
I'm still coming back to you

She's my collar

INTERLUDE: THE ELEPHANT

And out of the elephants trunk, confetti

Hallelujah Money

Here is our tree
That primitively grows
When we go to bed
Scare crows from the Far a-East
Come to eat its tender fruits
I have thought that the
Best way to protect our tree
Is by building walls
Walls like unicorns in full glory and galore
Even stronger than the walls of Jericho
Be glad then my friend
That in a few
We shall reap abundantly
What we'd always dreamt of havin
Enough of the starvin
It is love
That is the root of all evil

Not our tree
And thank you my friend
For trusting me

Hallelujah Money
Hallelujah Money

How will we know
When the morning comes
We are still humanz.
How will we know?
How will we dream?
How will we love?
How will we know?

Don't worry my friend
If this be the end
Then so shall it be
Until we say so
Nothing will move
Ah, don't worry
It is not against our morals
It's legally tender
Touch my friend
What the whole world, and whole beasts of nations desire: power

Hallelujah Money
Cross the chemtrail sun

WE GOT THE POWER

We've got the power
To be loving each other
No matter what happens
We've got the power to do that

We've got the power to be
Ringing the great bell
Out there above us
We've got the power for that
We got the power to do that

They dream of home
I dream of life out of here
Their dreams are small
My dreams don't know fear
I got my heart full of hope
I will change everything
No matter what I'm told
Or how impossible it seems

We did it before
and we'll do it again
We're indestructible
Even when we're tired

And we've been here before

Just you & I

Don't try to rescue me

I don't need to be rescued

We've got the power

To be loving each other

No matter what happens

We've got the power to do that

We've got the power to be

Ringin' the great bell

Out there above us

We got the power to do that

Get yourself up to the silent altar

And call me

But don't forget the machines

And if your choice is chipping it down on the M1

Then you'll wake up in the morning

You'll be stormin'!

We got the power
